Professional Summery:

I am a passionate IT engineering student with a strong interest in software development and technology. I enjoy learning new things, solving problems, and improving my technical skills. I am looking for opportunities where I can apply what I have learned, gain real-world experience, and grow as a developer. With a positive mindset and a commitment to continuous learning, I hope to contribute my ideas and efforts in a professional environment while building a strong career in the field of technology.

Technical Skills:

Programming: Java, Python, C-Sharp, .Net Core
Web Tech.: HTML-CSS, Javascript, Bootstrap, SQL, MERN
Tools: VS code, Android Studio, GitHub
Database: MySQL, MongoDB
Additional: Prompting, Content Writing

Soft Skills:

Communication | Presentation | Team Work | Problem Analyses | Time Management

Education:

1. Bachelor of Technology: Information Technology — Marwadi University, Rajkot
CGPA: 9.52 (95.20 %) — 2022-2026

2. Higher Secondary Certification (12th): Science(A) — SOS - The School of Science, E.M. School, Rajkot
Result: 73.33% & 82.98 PR (PCM) — 2020-2022
70.15% & 79.57 PR (Overall)

3. Secondary Schooling Certification (10th) — Saint Hari E.M. School, Jasdan
Result: 71% & 90.30 PR (X) — 2007-2020

Certification:

1. CPA: Programming Essentials in C++ — **Cisco**
- Learn OOP concepts and programming in C++.

2. Python 101 for Data Science — **IBM**
- Learn Python programming and their libraries like Pandas, Numpy, Matplotlib, etc.

3. Java Programming — **Oracle**
- Learn Java concepts and the connectivity with Database (JDBC).

4. Database programming with SQL — **Oracle**
- Learn Database concepts and SQL queries in Oracle database.

5. Basic CSharp Programming — **Infosys | Springboard**
- Learn C# Programming with OOP concepts in C# and .Net environment.

Other Certifications: https://drive.google.com/drive/folders/1VfbhzQzIJ71DJ5QbJpblGf8M6LzmtInK?usp=sharing

Internship:

Web Developer (Intern) — **BrainyBeam Technologies, Ahmedabad, Gujarat**
Tech: MERN Stack — Certification: May 2025 - June 2025 (1 month)

Project Work:

1. **Result History – A Web Application:**
   - **Technology used:** HTML, JavaScript, Bootstrap, CDNJS (for Excel data fetching).
   - **Description:** Developed a mini web-based result management system with a user-friendly landing page and input form. Students can enter their unique identifiers (such as Enrollment Number or GR Number) to instantly view their particular subject's marks or results.
   - **Duration:** In 5th-semester (Aug 2024 – Sept 2024)

2. **E-CommerceApp – An Android Application:**
   - **Technology used:** Kotlin, XML, SQLite.
   - **Description:** Developed an Android-based e-commerce application featuring multiple interactive screens, including a product listing home page and detailed product view. The app supports core shopping functionalities such as adding items to the cart, direct purchase, cart management, and a purchase history section to track previously bought products.
   - **Duration:** In 6th-semester (Jan 2025 – Feb 2025)

3. **Next-Gen. Smart Farming Platform for Proactive Crop Disease Management – An Android Application:**
   - **Technology used:** Kotlin, Python, Firebase, FastAPI, ONNX Model.
   - **Description:** Developed an AI-based smart farming application that enables farmers to detect crop diseases at an early stage. Users can capture or upload images of crop leaves, and the system analyzes them using a trained machine learning model to determine whether the leaf is healthy or affected by disease. The app provides detailed diagnostic reports along with recommended treatments and preventive measures for identified diseases.
   - **Duration:** In 7th-semester (June 2025 – Sept 2025)

4. **AI-Powered Recruitment and Staffing Platform – An Android Application:**
   - **Technology used:** Flutter (Dart), Python, Firebase, FastAPI.
   - **Description:** This application is an AI-driven recruitment and staffing platform designed for both job seekers and recruiters. It provides secure dual-role login, job recommendations, user can explore and search jobs, resume analysis with ATS scoring and suggest improvement, and NLP-based chatbot. Recruiters can post jobs, manage applications, and review candidates.
   - **Duration:** In 8th-semester (Oct 2025 – Feb 2026)

Additional Information:

- **Language Known:** English | Gujarati | Hindi
- **Hobbies/Interest-Area:** Mathematics | Reading | Sketching | Music
